DATE: Dec. 17, 2008

REF: Spring Road Cleanup

Dear Joe,

Please direct Joe Lowell to take the following actions.

Inasmuch as the Spring Road vacation has been denied at this time, as we discussed the area should be reclaimed and transformed into something that looks like municipal property. Part of your off-season activities as you, Marie and I discussed should include a general cleanup and trimming of this area, such as removal of dead and dying trees, removal of debris, etc. You may find some structures there that appear to be privately owned. If there is any doubt if any structure, fence, tree, vehicle or anything is privately owned, please do not touch it. Hopefully by the time your people are ready to do the cleanup, officials from town will have visited the area with you for clarification. This site visit can be scheduled with me at your convenience.
