

GENERATORS

You will need the following in order to obtain a permit for a stationary generator:

- Survey of property showing location
Note: Townhouse properties must also include letter of approval from the Association or the Management Co.
- Type of gas- Natural or Propane
If Propane, tank location and size must be shown on site-plan
- Specifications of generator
 - **Must include required clearances**
- Fire technical form
- Electrical technical form
- Plumbing technical form
 - Gas piping diagram
 - *Include size and material of piping and BTU's*
 - *Indicate if above or below grade*
 - *Submit LOAD DIAGRAM with BTUS of all appliances (see attached example)*
- *Submit completed affidavit, signed by the owner of the property (copy attached).*

.....

*Note: An application must be submitted to NJ Natural Gas (form included) or
For a quicker response go to the following link to fill out application:
