You can be a disc jockey, dance contestant or composer! This course will have you and a partner creating digital dance music in a heartbeat ...

Whether you edit sounds, use instruments, add vocals or write music note by note, you'll want to make a CD of your masterpiece. With over 5,000 sounds and your imagination, the musical possibilities are endless! Tell your friends and family to get ready!

Do you like RAP, Rock, Hip Hop, or Country? Learn how to do more than play music on your CDs or iPod. Students use computers and software to create music within a digital medium. Working together in small teams, we will learn everything from recording sounds and vocals to manipulating elements of music. Become a music producer as you explore song writing software, use sound samples, and experiment with patterns, pitch, volume, rhythm, and speed.

***Space is limited to 12 children, so register early!***
