Description: This eight week course will introduce the students to acting, singing, dancing, and the world of musical theater. They will focus on learning the terminology of the theatre, creating a character, vocalization, creative writing, and choreography. For the acting segment of this class, we will focus on improvisation as we free each actor of their inhibitions. Acting is important for children of all ages, as it strengthens their self-esteem. At the end of the eight week course we will have an informal showing of the work we have accomplished. There is a minimum number of participants required for this program to run; if you have any questions please contact the Recreation Department 973-625-8300 ext. 238.
